## Product Overview

The NuBOOM Ultra 2 or 4 is the most complete tower visualization product from CV Medical. With optional suspended lights and radiation shields, plus a touchscreen tablet control panel for the monitors, you can see and visualize multi-modality images with ease. Rapid renovation from procedure room to a surgical theater with NuBOOM Ultra.

**GE NuBOOM Ultra Surgical Boom**

## Features

- Floor mounted tower installs in just two days and doesn't require ceiling construction
- Multiple monitor and light options allow you to design the configuration that best suits your needs
- High Definition monitors on articulating arms offer crisp images that you can view from almost any position in the room
- High Definition LED displays
- Four 26" or two 24" LED monitors
- Simultaneously presented modality images on split screens – up to 8 images on 4 monitor unit
- Displays can be positioned at 7 points of articulation to provide comfortable 15 degrees downward viewing angle
